## Unit 4: Multiplication and Division

## **Lesson 2: Using Arrays to Multiply**

## **Practice Questions**

1. Write a multiplication sentence for each array.

- 2. Draw counters. Make arrays to show:
  - a. 3 rows of 9 and 9 rows of 3
  - b. 2 rows of 7 and 7 rows of 2

Write a multiplication sentence that goes with each array.

|    | b. 4 X 5   |
|----|--|
|    | c. 1 X 6   |
|    | d. 8 X 1   |
|    |  |
| 4. | In the theatre there are 7 rows of seats. There are 6 seats in each row. How many  |
|    | seats are there in all? Draw an array and write a multiplication sentence to solve |
|    | the problem.   |
|    |  |
|    |  |
|    |  |
|    |  |
|    |  |
| 5. | In the store, there are 8 rows of oranges. There are 4 oranges in each row. How    |
|    | many oranges are there in all? Draw an array and write a multiplication sentence   |
|    | to solve the problem.  |
|    |  |
|    |  |
|    |  |
|    |  |

3. Draw counters. Make an array to find each product (answer).

a. 2 X 4
